THIS AGREEMENT dated this _____ day of _____, 2022, by and between the County of Johnson, Missouri, (herein "County") and _____ (herein "Firm").

IN CONSIDERATION OF the performance of the services rendered under this Agreement and payment for such services, the parties agree to the following:

1. **Services** - As authorized by the County in writing, the Firm shall provide professional services for the benefit of the County as set forth in specific Proposals and Scopes of Work submitted by the Firm and accepted by County, and the Firm shall provide the County, as applicable, with the services, inspections, reports, studies, surveys, plans, specifications, and other work outlined. Firm agrees to provide all such services in a timely manner as established by the County in writing for each assigned project, or in the absence of the designation, within a reasonable time after receipt of County directives. Firm agrees to provide services by and through qualified personnel under standards and conditions generally accepted by professionals in the field or occupations for which services are provided. Services shall be provided based only upon the Scope of Services described or by any additional proposals provided to the Firm by the County or County's representative, or a written proposal for services which is approved by the County in writing. No work shall be performed nor shall compensation be paid for the Firm's work performed without a County approved written proposal for professional services. Proposals for additional services shall be in written form and shall be specifically responsive to the criteria provided by the County. All work performed by the Firm, based upon County approved proposals submitted by the Firm, shall be subject to the terms and conditions of this agreement unless otherwise specifically agreed upon by the County and Firm in writing. All proposals for work submitted by the Firm to the County for work shall at a minimum contain the following:

When the County provides the Firm with a written and/or graphic request for proposal, the Firm's proposal shall be responsive to the request with the same or greater level of specificity required by the request for proposal. The Firm shall specifically identify services which are included as basic services and those services which are excluded from basic services in the proposal. Services which the Firm does not identify as excluded from basic services under the proposal and which are necessary for successful completion of the work in the judgment of the County shall be presumed to be a part of basic services under the proposal. If a request for proposal requires the Firm to provide optional services, the Firm's proposal shall respond to the options requested, or provide reasons why the Firm cannot provide or respond to the request for optional services.

1.2 **Creation of Contract Documents** – Firm shall not without the express written permission of the County draft and/or create any contract documents, except for technical specifications and plans, for any project that Firm is assigned. Firm shall not be compensated for any contract documents drafted or created which are in violation of this provision. In the event that Firm is asked to draft and/or create contract documents by the County, then said contract documents must be in compliance with the County's then existing contract standards for projects and no compensation shall be provided to Firm for contract documents which fail to meet the County's standards.

1.3 **Time for Completion** - Each proposal for services shall contain a detailed description of the estimated time to complete each task or item of work to be performed by the Firm under the proposal. 1.4 **Compensation** - Each proposal for services shall state the basis of compensation on either: (1) an hourly fee plus expense basis with a statement of a maximum compensation to be charged, or, (2) a lump sum payment of compensation for all work to be performed, or, (3) a payment based upon unit prices. Proposals for compensation for an hourly fee plus expense basis shall provide detailed time and expense estimates to support a maximum contract amount to be charged and shall be consistent with the hourly rates, unit prices and reimbursement rates made a part of this agreement by reference in paragraph two (2) below. When the County or County's representative requests the Firm to provide work on an hourly fee plus expense basis, the Firm's proposal shall be responsive

to the request and shall not propose payment on another basis unless otherwise authorized. Unit price proposals shall identify and estimate the quantity of units as a part of the proposal when they can be identified and estimated, or as necessary in response to a particular request for proposal requesting such information. Each proposal for services shall also state a proposed payment schedule at a frequency no greater than monthly in such amounts as are consistent with amount of work to be performed and billed. Reimbursable expenses proposed shall be specifically identified and estimated as a part of the proposal with a statement of the maximum amount to be charged unless the County's request for proposal specifies otherwise.

1.5 **Signatures** - Firm proposals for services under this agreement shall be signed and dated by the Firm or an authorized representative of the Firm (as applicable), and shall be considered binding offers to contract open for acceptance by the County for an indefinite duration unless limited in the proposal or withdrawn prior to acceptance by the County. All proposals for services under this agreement shall be on forms approved by the County; use of the signature block shown in this agreement on a proposal for services shall be considered an adequate signature block. In addition, the signature block shall contain a line for insertion of the date the proposal is approved by the County.

2. **Compensation** - In consideration for the Firm's provision of services under this agreement, the County agrees to compensate the Firm for services rendered in accordance with the hourly rates, unit prices and reimbursement rates for expenses set forth in the proposal for the project for which compensation is sought. No increases in the rates and charges set forth in the proposal shall be permitted without the written authorization of the County. Payments shall be made within thirty (30) days of receipt of invoice by the County. Invoices shall be submitted periodically as mutually agreed upon by the County and Firm, or in the absence of such agreement, upon completion of the work constituting the task or project for which services are provided. Invoices for services on an hourly fee plus expense basis shall individually describe the task or project by name, show hours expended by classes of personnel in increments of not less than one-half hour and rates applied, as well as describe work performed during the invoice period; reimbursable expenses shall be itemized. Invoices for services performed on a unit price basis shall identify the task or project by name, identify and quantify units charged for services during the invoice period. Invoices for services on a lump sum basis shall identify the task or project by name and the invoiced amount. Periodic invoices shall not exceed the amounts permitted in the Firm's proposal approved by the County. The County reserves the right to withhold payment for

inadequately documented invoices until documented as required herein. The County further reserves the right to withhold payments for unperformed work or work not performed on a timely basis in accordance with the Firm's proposal when delays in performance of services are not attributable to the County, or as a result of a billing dispute between the County and Firm. No penalty shall be assessed to County for such amounts withheld until after any dispute is resolved in Firm's favor.

3. **County Responsibilities** - County agrees to furnish Firm with all current and available information for each task or project assigned to Firm, along with any information necessitated by changes in work or services initiated by the County which may affect services rendered hereunder.
